515/281-5834

FOR RELEASE February 9, 2005 10:30 a.m.

Auditor of State David A. Vaudt today released a report on a special investigation of the Iowa Department of Public Health (IDPH). The report covers the period July 1, 2001 through February 29, 2004. The special investigation was requested by IDPH officials as a result of concerns regarding the amount of fees deposited for birth certificates and registrations.

Vaudt reported the special investigation identified \$132,515 of undeposited fees from hospitals for birth certificates and registrations. Vaudt also reported it could not be determined whether additional fees from hospitals for birth certificates and registrations may have been undeposited during the time period reviewed because adequate records were not available from all hospitals. In addition, Vaudt reported it could not be determined whether other birth certificate and registration fees were undeposited because it was not possible to confirm all fees remitted to IDPH for birth certificates and registrations of births occurring outside hospitals.

The IDPH Cashier is responsible for depositing fees collected by the Department and ensuring the deposits are properly recorded. Vaudt reported the sequence of transactions recorded by the IDPH Cashier during the time period of the investigation could not be accounted for. In addition, the mail containing birth certificate fees, birth registration fees and other fees received by IDPH was not secured in the centralized mail room or the vital records work area during the period of the investigation.

Vaudt also reported IDPH has implemented several internal control improvements that provide additional assurance fees received by IDPH are properly deposited. IDPH officials have revised certain procedures to ensure the internal control weaknesses identified during the investigation have been properly resolved.

Copies of the report have been filed with the Polk County Attorney's Office, the Attorney General's Office and the Division of Criminal Investigation. A copy of the report is available for review on the Auditor of State's web site at <http://auditor.iowa.gov/specials/specials.htm> and in the Office of Auditor of State.

Auditor of State's Report

To Dr. Mary Mincer Hansen, Director
of the Iowa Department of Public Health:

As a result of concerns identified by and at the request of officials of the Iowa Department of Public Health (IDPH), we conducted a special investigation of certain fees received by IDPH and their subsequent deposit. We have applied certain tests and procedures to selected financial transactions for the period July 1, 2001 through February 29, 2004. Based on a review of relevant information and discussions with IDPH officials and personnel, we performed the following procedures.

- (1) Evaluated internal controls surrounding the collection of certain fees to determine whether adequate policies and procedures were in place and operating effectively. We specifically reviewed controls in place in the mailroom, cashier's office and the vital records area and walk-up window within the Bureau of Health Statistics.
- (2) Obtained copies of Summary Reports submitted by hospitals, when available. The reports document the fees submitted to IDPH for birth certificates and registrations. Not all hospitals retained copies of the Summary Reports for the entire period of July 1, 2001 through February 29, 2004. We:
 - Compared the Summary Reports obtained from the hospitals to copies filed by IDPH to determine which reports, if any, were not on file.
 - Determined if the fees for birth certificates and registrations recorded on the Summary Reports filed at IDPH were properly deposited.
 - Compiled the amounts collected for home births. That amount, added to the total fees documented on the Summary Reports from the hospitals, was compared to the amount recorded as deposited on the Iowa Financial Accounting System (IFAS).
- (3) Examined cash receipt documents prepared by the IDPH Cashier to determine if they were properly supported.
- (4) Examined notations made on the cash receipt documents by employees of the State Treasurer's Office to determine the amount of cash included in each deposit. We then compared the notations made by employees of the State Treasurer's Office to documentation prepared by the staff in the vital records area of the Bureau of Health Statistics to determine if cash received and processed by the Bureau was subsequently deposited.

These procedures identified \$132,515 of undeposited fees from hospitals for birth certificates and registrations for the period July 1, 2001 through February 29, 2004. Because Summary Reports of birth certificates and registration fees were not available from all hospitals, we are unable to determine whether additional fees from hospitals for birth certificates and registrations may have been undeposited during this time period. In addition, because we were unable to confirm the fees remitted to IDPH for home birth certificates and registrations, we are unable to determine if other birth certificate and registration fees were properly deposited.

Also, because the sequence of transactions recorded on the IDPH Cashier's validation machine could not be accounted for and because the mail containing checks and cash was not secured in the centralized mail room or the vital records work area, we are unable to determine if other fees received by IDPH were properly deposited. Several internal control weaknesses were also identified. Our detailed findings and recommendations are presented in the Investigative Summary and **Exhibits A to E-3** of this report.

The procedures described above do not constitute an audit of financial statements conducted in accordance with U. S. generally accepted auditing standards. Had we performed additional procedures, or had we performed an audit of financial statements of the Iowa Department of Public Health, other matters might have come to our attention that would have been reported to you.

Copies of this report have been filed with the Polk County Attorney's Office, the Division of Criminal Investigation and the Attorney General's Office.

We would like to acknowledge the assistance and many courtesies extended to us by the officials and personnel of the Iowa Department of Public Health and the Division of Criminal Investigation during the course of our review.

Auditor of State

WARREN G. JENKINS, CPA
Chief Deputy Auditor of State

November 4, 2004

Iowa Department of Public Health
Investigative Summary

Background Information

The Iowa Department of Public Health (IDPH) provides general supervision of the State's public health, promotes public hygiene and sanitation, performs health promotion activities, prepares for and responds to bioemergency situations and enforces laws on public health. The Department's programs are conducted through five major divisions, including the Division of Behavioral Health and Professional Licensure and the Division of Environmental Health.

The Division of Behavioral Health and Professional Licensure includes the Bureau of Professional Licensure which provides coordination and support to 19 licensure boards regulating more than 30 professions. The Bureau also licenses and regulates about 90,000 individuals and 7,250 businesses. When the individuals and businesses obtain or renew their licenses, they often are required to submit a fee to IDPH. Fees collected by the Bureau of Professional Licensure range from \$10 to \$225.

The Division of Environmental Health provides technical assistance to local boards of health, local environmental health professionals, public health nurses and local communities in areas relating to environmental health. Within the Division, there are several bureaus, each with a specific purpose. Some bureaus collect fees for specific types of registrations, licenses or certificates associated with the operations of the bureau.

- The Bureau of Radiological Health licenses and inspects facilities using radioactive materials. The Bureau also licenses people using radioactive materials or operating radiation-emitting machines.
- The Bureau of Environmental Health Services monitors and regulates hazardous substances such as waste products, pesticides, radon and other toxins. In addition, the Bureau oversees swimming pool and spa inspections, tattoo artists, programs which monitor consumer product safety and grade "A" milk production.
- The Bureau of Health Statistics is responsible for registering all vital events in Iowa and providing certified copies of the events when appropriate. The Bureau also compiles health statistics for the State.

According to IDPH, the vital records area of the Bureau of Health Statistics registers approximately 100,000 events and issues about 85,000 certified copies annually. The Bureau collects fees for registering births and issuing copies of birth, death and marriage certificates. The Bureau also collects fees for marriage license applications and other various events.

Births are registered with IDPH by hospitals where the births occur. The hospitals also initially collect the registration and certificate fees for the births and subsequently remit the payments to IDPH. Prior to July 1, 2003, the hospitals collected \$10 from parents to register a birth and \$10 for a copy of the child's birth certificate. After July 1, 2003, the registration fee increased to \$15. The hospitals are allowed to waive the fees when the parents' financial situation warrants.

In March 2004, there were approximately 90 hospitals in Iowa delivering babies and registering births. The hospitals prepare Summary Reports including the name of each child, date of birth, parents' name and address and fee information. The reports also include a "fee status" column which documents whether the fees for birth registration and a copy of the birth certificate were paid, waived or not paid for each birth reported. A copy of a Summary Report prepared by the hospitals is included in **Appendix 1**. The reports are periodically submitted to IDPH along with the fees collected.

The manner in which fees are collected and submitted is not consistent among the hospitals. Some hospitals collect payment from the parent in the form of cash or a check. Checks collected may be payable to either the hospital or IDPH. Other hospitals include the fees in the parent's hospital bill. Some hospitals submit the cash and/or checks collected from the parents. Others deposit the fees and submit one check drawn on a hospital account. Some hospitals mail the Summary Reports and fees through the mail. Some use certified mail while others use commercial postal services. In addition, the time period between reports is not consistent. Some hospitals submit reports and fees weekly or bi-weekly depending on the number of babies delivered by the hospital. Others submit reports monthly or on an irregular schedule.

In addition to the Summary Reports submitted to IDPH through the mail, the hospitals also submit an electronic record of births. The electronic record, referred to as a receiving log, details a complete listing of all births occurring since the last report submitted. Each hospital is assigned a specific block of time on a given day each week to submit the reports via a modem. Hospitals with a larger volume of births are assigned two separate blocks of time.

Once the receiving log is submitted by the hospitals, it is used by personnel in the Bureau of Health Statistics to generate birth certificates. In accordance with section 144.13 of the *Code of Iowa*, IDPH is required to register all births and issue a birth certificate within seven days of the birth. Because of the *Code* requirement and the lack of timely payment by some hospitals, IDPH does not ensure fees have been collected prior to registration of the birth and issuance of the birth certificate. According to the Bureau Chief of Health Statistics, someone from the Bureau was to periodically trace information on randomly selected receiving logs to the associated Summary Report and fees to ensure the report and fees were received. However, this procedure was low priority and not performed on a regular basis as a result of limited resources.

Births occurring outside hospitals, referred to as "home births", are also registered with IDPH. According to the Bureau Chief of Health Statistics, the information for these births along with applicable fees may be provided directly to IDPH at the public access window in the Bureau or may be mailed. The home births are added to the receiving log by personnel within the Bureau of Health Statistics.

Certified copies of birth, death or marriage certificates may be requested by telephone, in-person or through a postal service. The \$10 fee per copy is payable by cash, check or money order.

DEPOSIT OF FEES

Licensing – Most of the fees collected by IDPH for licensing are received through the mail. Prior to March 2004, all of IDPH's mail was received and sorted in an unsecured centralized mail processing area. After March 2, 2004, IDPH secured the area where mail is received and sorted.

Once sorted, the mail, including all fees, is picked up by staff from IDPH's various divisions and bureaus. The procedures used to process applications and license renewals vary by area. However, each area ensures the appropriate fees are collected prior to issuance of the license or other service requested. After processing the license, renewal or other requested service, the requested documentation is mailed to the licensee and the fees, along with appropriate documentation, are forwarded to the IDPH Cashier.

Vital Records – A majority of the fees collected by IDPH for registration of events and copies of certificates are received through the mail. As stated previously, prior to March 2004, all mail was received and sorted in an unsecured mail processing area. Once sorted, mail containing requests for vital records, including all fees, was picked up by a mail clerk from the vital records area of the Bureau of Health Statistics.

After returning to the vital records area of the Bureau, the mail clerk sorts the mail between Summary Reports from hospitals, requests for certified copies and all other correspondence. The Summary Reports are provided to another staff member who reviews them to ensure completeness and compares them to the funds received. The funds are then forwarded with the Summary Reports to the IDPH Cashier for deposit.

The mail clerk also ensures all requests for certified copies are made by an eligible party, are properly paid for and contain all required components for processing. She also restrictively endorses any checks for eligible requests. Any ineligible requests and associated payments are returned to the individual. All eligible requests are entered into a computerized system and assigned a tracking number.

Based on the volume of mail, some Summary Reports and requests for certified copies may remain in the vital records area for a day or more before it is sorted, logged and processed. While the vital records area is secured and the mail is stored in a file drawer overnight, the mail is still accessible during normal working hours when the mail clerk is not sitting at her desk.

IDPH Cashier – The IDPH Cashier is responsible for depositing checks, cash and money orders collected by the Department with the Treasurer of State’s Office and ensuring the deposits are properly recorded. All funds collected for licensing and the Bureau of Health Statistics are accompanied by specific documentation. The IDPH Cashier is to record the date, amount and type of fee on the documentation for each transaction. The IDPH Cashier is also responsible for preparing the cash receipt document (CR) which acts as a deposit slip when the funds are remitted to the Treasurer of State’s Office for deposit to the bank.

Using a validation machine programmed to record the type of fee received, the IDPH Cashier is responsible for keying in the amount received for each transaction. The documentation accompanying the fee is to be validated by the IDPH Cashier using a printer connected to the machine. The validation information includes:

- a sequential 4-digit validation number,
- the dollar amount,
- the date and
- an abbreviated description of the type of fee.

The validated documents are returned to the appropriate licensing area or the Bureau of Health Statistics. The licensing documentation is filed in each area of IDPH in a manner best suited to the needs of that area. Some areas file the documentation by licensee while others file it by the date processed. The Summary Reports returned to Health Statistics are filed by hospital.

The validated information recorded on the documentation returned to each licensing area and the Bureau of Health Statistics is also recorded on one of two tapes generated by the validation machine. An internal tape should capture each individual transaction validated by the IDPH Cashier. The tape is an ongoing record of the deposit activity. Rather than being torn off with each deposit, it is continuous for a period of time (usually several weeks). The internal tape is to be changed by the IDPH Cashier only when it is exhausted and then stored.

An external tape is generated by the validation machine when it is totaled to prepare a deposit. The tape is referred to as a “Z-tape”. The total funds recorded for each type of fee (since the last time the machine was totaled) is printed on the tape. The “Z-tape” is used to prepare the CR and balance the amount recorded to the cash, checks and money orders taken to the Treasurer of State’s Office for deposit.

Prior to depositing the cash and checks with the Treasurer of State's Office, the "Z-tape" and the CR document are reviewed by someone independent of their preparation. The reviewer initials the CR to document it agrees with the "Z-tape." The internal tape was not used during the review or reconciliation process. After approval, the CR is returned to the IDPH Cashier who takes the document along with the cash, checks and money orders to the Treasurer of State's Office for deposit.

A copy of a portion of a "Z-tape" and an internal tape are included in **Appendices 2** and **3**, respectively. A flow chart of the deposit process is included in **Appendix 4**.

Patricia Burgett, Accounting Clerk I, started employment with the State of Iowa on February 2, 1986. As the IDPH Cashier, Ms. Burgett was to validate supporting documentation, prepare the CR documents, balance the fees and carry the daily deposits to the Treasurer of State's Office. When Ms. Burgett was out of the office, a back-up IDPH Cashier performed her duties.

UNDEPOSITED FEES

In late February 2004, IDPH officials were notified by a hospital that a parent's check sent to IDPH for birth certificate and registration fees had not been redeemed. Upon review by IDPH staff, it was discovered staff from the Bureau of Health Statistics had registered the birth and issued the certificate to the parents based on the electronic receiving log. However, the Summary Report including the birth submitted to IDPH along with the fees from the hospital was not filed and the fees had not been deposited.

While researching the undeposited fees from the hospital, IDPH financial staff also reviewed other accounting records associated with deposits made by the IDPH Cashier. The records included the "Z-tapes" and internal tapes from the validation machine and the CR documents prepared by the IDPH Cashier. During this review, IDPH financial staff determined only two internal tapes were available for review, one of which was removed from the validation machine by the Bureau Chief of Finance. Upon inquiry, Ms. Burgett told the Bureau Chief of Finance she had destroyed all other internal tapes.

IDPH financial staff also discovered the transaction numbers recorded on both of the internal tapes available could not be sequentially accounted for. As a result, IDPH staff could not determine if all fees were properly deposited. We also reviewed the internal tape and have not been able to determine why certain transactions were not recorded. In addition, we are not able to determine what specific transactions should have been recorded on the tape or were processed using the validation machine.

In addition to the identification of the undeposited fees from the hospital, the Bureau Chief of Finance identified concerns regarding the amount of fees collected for birth registrations. While the number of births registered was changing, the amount of associated fees recorded was not changing at a comparable rate. **Table 1** summarizes the number of births and the associated fees compiled by IDPH personnel for fiscal years 2000 through 2003.

Table 1

Fiscal Year	Number of Registered Births	Increase/ (Decrease) from prior year	Birth Registration Fees	Increase/ (Decrease) from prior year
2000	37,720	-	\$ 234,918	-
2001	39,227	3.9%	228,624	(2.7%)
2002	37,513	(4.4%)	210,890	(7.7%)
2003	37,076	(1.1%)	206,270	(2.2%)

Source: IDPH Bureau of Finance

IDPH financial staff also reviewed the fiscal year 2004 year-to-date information for birth registration fees and identified concerns. In spite of the increased registration fee effective at the beginning of fiscal year 2004, the amounts deposited were less than expected.

As a result of the concerns identified, IDPH officials requested the Office of Auditor of State conduct an investigation of certain fees received by the Department and their subsequent deposit. IDPH officials also requested the assistance of the Division of Criminal Investigation (DCI). We performed the procedures detailed in the Auditor of State's Report for the period July 1, 2001 through February 29, 2004.

Detailed Findings

These procedures identified \$132,515 of undeposited fees from hospitals for birth certificates and registrations for the period July 1, 2001 through February 29, 2004. Because Summary Reports of birth certificate and registration fees were not available from all hospitals, we are unable to determine whether additional fees from hospitals for birth certificates and registrations may have been undeposited during this time period. In addition, because we were unable to confirm the amounts remitted to IDPH for home birth certificates and registrations, we are unable to determine if other birth certificate and registration fees were properly deposited.

Also, because the sequence of transactions recorded on the IDPH Cashier's validation machine could not be accounted for and because the mail containing fees was not secured in the centralized mail room or the vital records work area, we are unable to determine if other fees received by IDPH were properly deposited.

Our findings are summarized in **Exhibit A** and a detailed explanation of each finding follows.

LICENSING

When individuals and businesses obtain or renew their licenses, they often are required to submit a fee to IDPH. Most of the fees collected for licenses are received through the mail. Because prior to March 2004, all of IDPH's mail was received and sorted in an unsecured mail processing area, we cannot be sure all fees were received by the appropriate licensing area for processing. However, we believe the risk of applications or license renewal requests and the related fees being removed from the mailroom and going undetected is minimal. IDPH would likely be contacted by the applicant or licensee in a timely manner inquiring about the status of their request, thus alerting IDPH staff to the problem. After March 1, 2004, the mail processing area was secured.

However, once the fees collected by the licensing areas are submitted to the IDPH Cashier's Office, they become commingled with fees collected by other bureaus and divisions of the Department. While most of the fees for licenses are in the form of checks, some payments are made in cash. Once submitted to the IDPH Cashier, the cash is susceptible to substitution for checks received by other bureaus and divisions.

BIRTH CERTIFICATE AND REGISTRATION FEES

Hospital Births - From IDPH staff, we obtained a listing of all Iowa hospitals delivering babies in March 2004. We contacted each of the hospitals and requested copies of the Summary Reports submitted by the hospitals to IDPH between July 1, 2001 and February 29, 2004. Of the 90 hospitals contacted, 83 provided us copies of the Summary Reports they submitted for the time period requested, 3 hospitals did not maintain copies for the entire period but submitted the copies they had available (two starting in January 2003 and one starting in June 2003), and 3 hospitals refused to provide copies to us. The remaining hospital did not provide any copies to us because they waived all fees for birth registrations or certificates. The 3 hospitals that did not submit copies of Summary Reports do not deliver a large number of babies.

Using copies of the Summary Reports submitted by the hospitals at our request, we compiled the payments made by hospital for birth certificate and registration fees. The amounts paid are summarized in **Table 2** and are listed by hospital in **Exhibit B**.

Table 2

Period	Amounts Confirmed by Hospitals		Total
	Birth Certificate Fees	Birth Registration Fees	
07/01/01 – 06/30/02	\$ 211,500	211,480	422,980
07/01/02 – 06/30/03	218,570	218,700	437,270
07/01/03 – 02/29/04	143,610	210,420	354,030
Total	\$ 573,680	640,600	1,214,280

As we compiled the certificate and registration fees from the Summary Reports received from the hospitals, we also compared each report to the original reports filed within the Bureau of Health Statistics. As previously stated, each Summary Report received by IDPH and subsequently validated when the fees are deposited is filed within the Bureau by hospital. By comparing the copies of the Summary Reports submitted to us by the hospitals to the filed reports, we identified 427 Summary Reports that were not validated and subsequently filed by IDPH. Seventeen of the unfiled reports contained only births for which both the certificate and registration fee were waived. The Summary Reports for which fees were remitted, but a copy of the report was not filed by IDPH, are listed in **Exhibit C**. The total amounts and number of the missing Summary Reports are also summarized in **Table 3**.

After compiling a list of Summary Reports not filed by IDPH, we sorted the list by hospital and determined the two hospitals with the most missing Summary Reports were the University of Iowa Hospital and Finley Hospital in Dubuque. We identified missing Summary Reports for the two hospitals that totaled over \$7,000 each. We spoke with a representative of Finley Hospital who told us the hospital had received a number of complaints from patients about checks for birth certificates and registration fees not being redeemed. According to the representative, the complaints had been coming into the hospital for some time. Because the unredeemed checks were written by the patients on their personal accounts, we are unable to determine the amount of checks not cashed.

Table 3

Period	Missing Summary Reports	
	Amount	Number
07/01/01 – 06/30/02	\$ 2,980	51
07/01/02 – 06/30/03	7,140	43
07/01/03– 02/29/04	59,735	333
Total	\$ 69,855	427

The amounts listed in **Exhibit C** and summarized in **Table 3** represent only a portion of the birth certificate and registration fees identified in **Exhibit A** as undeposited from July 1, 2001 through February 29, 2004. The remaining undeposited amount appears to have resulted from checks being substituted for cash.

Using the Summary Reports from the hospitals, we also reconciled the number of individual birth certificate and registration fees marked as paid to the total amount the hospital reported it remitted. During this process, we identified:

- some hospitals incorrectly split payments between certificate fees and registration fees.
- some hospitals did not clearly indicate, or did not indicate at all, whether individuals paid the fees or if the fees were waived.
- some hospitals did not record the total amount remitted.

We also compared the Summary Reports from the hospitals to the validated Summary Reports filed by IDPH to determine if the amount validated by the IDPH Cashier agreed with the total amount reported by the hospital as paid. We identified a number of instances in which the amount reported by the hospital differed from the amount validated by the IDPH Cashier. We compiled a listing of the variances identified between the copies of the Summary Reports submitted to us and the validated copies on file with IDPH. The variances are summarized in **Table 4** by fiscal year and listed in **Exhibit D** by hospital.

Table 4

Net Variances from Summary Reports			
Period	Birth Certificate Fees	Birth Registration Fees	Total
07/01/01 – 06/30/02	\$ 3,145	3,125	6,270
07/01/02 – 06/30/03	1,880	1,780	3,660
07/01/03 – 02/29/04	1,315	2,655	3,970
Total	\$6,340	7,560	13,900

We also compiled a listing of the amount of birth certificate and registration fees validated by the IDPH Cashier for hospitals that did not submit copies of Summary Reports to us for the period of our review. The fees validated on the reports are summarized in **Table 5** and included in **Exhibit A**.

Table 5

Summary Reports Not Submitted by Hospitals			
Period	Birth Certificate Fees	Birth Registration Fees	Total
07/01/01 – 06/30/02	\$ 5,350	5,350	10,700
07/01/02 – 06/30/03	4,420	4,360	8,780
07/01/03 – 02/29/04	1,910	2,780	4,690
Total	\$ 11,680	12,490	24,170

Home Births - In addition to births registered by hospitals, home births are periodically reported to IDPH and fees are collected for the birth certificate and registration. Rather than confirm the amount of fees collected for the home birth certificates and registrations, we compiled the fee information from data maintained by IDPH. **Table 6** summarizes the fees.

Period	Home Births		Total
	Birth Certificate Fees	Birth Registration Fees	
07/01/01 - 06/30/02	\$ 3,740	3,690	7,430
07/01/02 - 06/30/03	3,610	3,510	7,120
07/01/03 - 02/29/04	2,910	3,705	6,615
Total	\$ 10,260	10,905	21,165

Reconciliation of Summary Reports - Using the information compiled from our review of the Summary Reports, we reconciled the Summary Reports submitted to us by the hospitals to deposits of birth registration fees recorded on the Iowa Financial Accounting System (IFAS). The reconciliation is summarized in **Table 7** and illustrated in **Exhibit A**.

For the period July 1, 2001 through February 29, 2004, we identified \$132,515 of undeposited birth certificate and registration fees from hospitals. Because Summary Reports of birth certificates and registration fees were not available from all hospitals, we are unable to determine whether additional fees from hospitals for birth certificates and registrations may have been undeposited during this time period. In addition, because we were unable to confirm the amounts remitted to IDPH for home birth certificates and registrations, we are unable to determine if other birth certificate and registration fees were properly deposited.

Description	Reconciliation		Total
	Birth Certificate Fees	Birth Registration Fees	
Amount deposited per IFAS #	\$ 539,755	601,245	1,141,000
Less:			
Summary Report Variances (Table 4)	6,340	7,560	13,900
Summary Reports Not Submitted (Table 5)	11,680	12,490	24,170
Home Births (Table 6)	10,260	10,905	21,165
Adjusted IFAS amount	511,475	570,290	1,081,765
Amount confirmed per hospitals	573,680	640,600	1,214,280
Difference	\$ 62,205	70,310	132,515

Adjusted for payments deposited to IFAS in March 2004. See **Exhibit A** for additional information.

CASH RECEIPT LOG

Within the Bureau of Health Statistics, a daily report of floor and window activity is prepared. Floor activity includes payments for requests for copies of vital records received by IDPH through the mail. Window activity includes payments for copies requested at the customer service window within the Bureau. The daily report is prepared using the same computer system used to process the request and record the payment collected. The report is referred to as the VRS Revenue Report and it summarizes the amount of funds collected by area (floor or window) and by type (check, cash or money order). The report does not include birth certificates or registration fees submitted by hospitals.

We received a summary of all VRS Revenue Reports from IDPH officials for the period of our review. Using IFAS, we were able to obtain a complete listing of all CR documents for the same time period. Because all CR documents prepared by the IDPH Cashier's Office started with the series "58808" or "588PB", we were able to isolate the deposit records containing the window, hospital and licensing activity. Using the listing, we obtained IDPH's copy of each CR document prepared in the IDPH Cashier's Office. Each CR document contained the initials or signature of the preparer. As the IDPH Cashier, Ms. Burgett prepared the majority of the CR documents beginning with "58808" and all CR documents beginning with "588PB". However, CR documents were periodically prepared by a back-up IDPH Cashier. By reviewing the list of CR documents prepared by Ms. Burgett, we determined she did not prepare deposits on a daily basis as was to be done in accordance with IDPH policy.

According to an employee of the Treasurer of State's Office, who spoke with the Bureau Chief of Finance, when Ms. Burgett took funds to the State Treasurer's Office for deposit, she insisted the cashier with whom she left the deposit count the cash and make a notation of the amount on the face of the CR document. Therefore, documentation was available of the amount of cash Ms. Burgett deposited with the State Treasurer's Office. If the notation on the copy maintained by IDPH was not readable, we reviewed the original CR document maintained by the State Treasurer's Office to determine the amount of cash deposited. Using the CR documents, we compiled a listing of the deposits made to the Treasurer's Office and identified the portion of the deposit made in cash.

To determine if the calculated amount of undeposited fees was reasonable, we used the listing of deposits to compare the cash recorded on the VRS Revenue Report to the cash deposited with the Treasurer of State by the IDPH Cashier. As stated previously, the VRS Revenue Report identified cash collected from floor and window activity while the CR document contains the floor and window activity as well as the hospital and licensing fees. However, because the fees from the hospitals contain sizable amounts of cash, we expected the amounts of cash documented on the CRs to exceed the amounts of cash on the VRS Revenue Reports. The comparison performed showed the cash on the VRS Revenue Report often exceeded the amount deposited with the Treasurer of State. The comparisons of deposits are listed by fiscal year in **Exhibits E-1** through **E-3**. The differences between the amounts are summarized in **Table 8**. The comparison of deposits demonstrates the calculated undeposited birth certificate and registration fees amount of \$132,515 as shown in **Exhibit A** is reasonable.

Table 8

Period	Cash Amounts Per:			Exhibit
	VRS Revenue Report	CR Documents	Difference	
07/01/01 – 06/30/02	\$ 83,710.00	26,288.92	57,421.08	E-1
07/01/02 – 06/30/03	85,861.00	38,000.03	47,860.97	E-2
07/01/03 – 02/29/04	52,075.00	18,732.23	33,342.77	E-3
Total	\$ 221,646.00	83,021.18	138,624.82	

As the primary IDPH Cashier, Ms. Burgett had daily access to the cash and checks collected by the Department. She also prepared accounting records and the deposits for the Department. Due to the nature of her job duties, she had the ability to substitute checks for cash received by IDPH. This action could occur when payments for birth certificates and registrations by hospitals are not recorded and go undetected when the validated Summary Reports are not compared to the electronic receiving log of births. During an interview with a representative of the DCI, Ms. Burgett stated she had substituted checks for cash.

However, we are unable to determine if the undeposited fees from hospitals for birth certificates and registrations we identified were misappropriated from the IDPH Cashier's Office or elsewhere within IDPH. Because the mail room where some fees were initially received was not secure prior to March 2004, we are unable to determine if all fees were delivered to the Bureau of Health Statistics for processing. In addition, because the mail was not immediately processed within the Bureau of Health Statistics, some envelopes from hospitals containing Summary Reports and fees may have been taken from the Bureau before the fees were recorded.

During an interview with a representative of the DCI, Ms. Burgett admitted to not depositing approximately \$1,200 - \$1,400 of fees submitted to IDPH. Based on procedures performed by IDPH and DCI, Ms. Burgett was terminated from employment on March 23, 2004. We are unable to determine if other IDPH employees received fees that should have been deposited by the Department.

Recommended Control Procedures

As part of our investigation, we reviewed the procedures used by the Iowa Department of Public Health to process various fees received. An important aspect of internal control is to establish procedures that provide accountability for assets susceptible to loss from error and irregularities. These procedures provide that the actions of one individual will act as a check on those of another and provide a level of assurance that errors or irregularities will be noted within a reasonable time during the course of normal operations. During the course of our investigation, we made recommendations to further strengthen the Iowa Department of Public Health's internal control. The recommendations have been implemented by the Department as identified below.

- A. Issuance of Certificates and Licenses – To comply with time requirements established by Chapter 144 of the *Code of Iowa*, the Bureau of Health Statistics issues birth certificates and registers births without regard to whether the associated fees have been received.

During our financial audit, an IDPH representative stated the electronic receiving logs were periodically compared to the Summary Reports to ensure fees were received for birth certificates and registrations requested by hospitals. However, based on our observations and subsequent discussions with IDPH personnel, the comparisons were not being performed due to a lack of staff resources. As a result, IDPH staff were not able to identify, in a timely manner, birth certificate and registration fees from certain hospitals had not been deposited.

Licenses, certificates and copies of other vital records are issued only after payment for the request has been made.

Current Status – IDPH has implemented procedures to ensure fees for birth certificates and registrations are made in a timely manner from the date of their issuance. To ensure timely payments, the electronic issuance reports are reconciled to the amounts reported by the hospitals on the Summary Reports and subsequently validated.

- B. Review of Deposits – Prior to making deposits with the Treasurer of State's Office, the CR document and the totals on the "Z-tape" were reviewed and approved by someone independent of their preparation. However, the "Z-tape" did not include detailed transactions so the reviewer could not sequentially account for each transaction. The internal tape prepared by the validation machine was not reviewed.

Current Status - IDPH has obtained a new validation machine and now reviews all documents prepared by the IDPH Cashier and periodically scans a tape containing detailed transactions to ensure all transactions are properly recorded.

- C. Remittance of Payment – During the period of our review, a number of hospitals remitted cash, checks and money orders to IDPH for birth certificate and registration fees collected by the hospital.

Current Status - On September 1, 2004, IDPH sent a letter to all Iowa hospitals delivering babies stating the hospitals may no longer remit cash payments for the birth certificate and registration fees.

- D. Mail Room – Prior to March 2004, IDPH used a mailroom with unrestricted access. Some of the mail contained cash and checks.

Current Status - IDPH has restructured the mail room and access is now limited to authorized individuals.

**Special Investigation of the
Iowa Department of Public Health**

Exhibits

Iowa Department of Public Health
Summary of Findings

For the Period July 1, 2001 through February 29, 2004

	Table	Fiscal Year Ended June 30, 2002	
Amount Deposited per IFAS:			
Birth Certificate Fees ^^		\$ 210,890	
Birth Registration Fees		210,890	
Less:			
Variances between Summary Reports from Hospitals and Validated Summary Reports:	4		
Birth Certificate Fees		(3,145)	
Birth Registration Fees		(3,125)	
Summary Reports Not Submitted by Hospitals:	5		
Birth Certificate Fees		(5,350)	
Birth Registration Fees		(5,350)	
Payments for Home Births:	6		
Birth Certificate Fees		(3,740)	
Birth Registration Fees		(3,690)	
Add:			
Birth Certificate Fees deposited after 03/01/04		-	
Birth Registration Fees deposited after 03/01/04		-	
IFAS Adjusted to Confirmed Hospitals			397,380
 Amounts Paid to IDPH per the Summary Reports from Hospitals:			
Birth Certificate Fees	2	\$ 211,500	
Birth Registration Fees		211,480	422,980
Calculated Undeposited Fees for Birth Certificates and Registrations			\$ 25,600

^^ The amount recorded on IFAS for Birth Certificates includes deposits for copies of birth certificates not associated with Birth Registrations. Fees are received from County Recorders and individuals for copies of birth certificates. Because we want to assess only the fees received from hospitals for certificates issued at the time of Birth Registration, we calculated the amount of Certificate Fees received by IDPH by using the Birth Registration information recorded on IFAS. During the two fiscal years ended June 30, 2003, the fee for birth certificates was the same as the fee for birth registration. Effective July 1, 2003, the registration fee increased to \$15 while the certificate fee remained at \$10.

Fiscal Year Ended June 30, 2003		July 1, 2003 - February 29, 2004		Totals

Iowa Department of Public Health
Flowchart of Selected Fees Collected

- Provided to reviewer to ensure completeness of deposit.
- Sent to Treasurer of State's Office for deposit.
- Exhausted tapes are to be stored by the Cashier.

Iowa Department of Public Health
Flowchart of Selected Fees Collected

- ① Mail is sorted in IDPH mail room. A representative from each Division and/or Bureau picks up the mail after it has been sorted.
- ② Documents (applications, requests, etc.) are reviewed and IDPH staff members ensure amount remitted is appropriate. Documents and corresponding funds are sent to the Cashier's Office.
- ③ Cashier receives documents and funds. Amount submitted for each document is keyed into validation machine and automatically included in the total tallied by the machine. Each document is given a sequential 4-digit validation number by the machine. The validation number, dollar amount, date and a description of the type of fee is stamped on each document by a printer located next to the machine. The same information should also be recorded on the internal tape of the validation machine.
- ④ Validated documents are returned to each licensing area.
- ⑤ Each area ensures documents are validated, completes the appropriate administrative process then issues the license/certificate to the customer. The document is filed in the licensing area. If a validated document is not returned to the licensing area, the document is license/certificate is not mailed to the customer. It is expected the customer would call to inquire about the status of the license/certificate if this occurred, thus triggering a review for an unvalidated document.
- ⑥ A clerk from the Vital Records area of the Bureau of Health Statistics collects the mail from the IDPH mail room and sorts it into the following categories:
 - Summary Reports from hospitals (birth information)
 - Applications for certified copies
 - Information from County Recorders
 - Other correspondence
- ⑦ Requests for certified copies arriving through the mail, at the walk-up window or via a phone call are electronically tracked and summarized on a daily report of activity. The funds collected by the Vital Records area are balanced to the daily report which is submitted to the Cashier. Copies are issued prior to the Cashier's validation of the deposit.

Using birth information electronically submitted to IDPH by the hospitals, staff from the Vital Records area issue birth certificates and mail them without ensuring the related fee has been submitted.
- ⑧ The following items are submitted to the Cashier's Office by the Vital Records area:
 - Birth information submitted by hospitals: Summary Reports and funds remitted
 - Information submitted by County Recorders: Spreadsheet prepared by Vital Records' staff and funds remitted
 - All other activity: Floor and window activity report and funds collected
- ⑨ Validated documents are returned to Vital Records and filed. Prior to March 2004, completeness was not verified for Summary Reports submitted by hospitals.
