PROGRAM

# IOWA AIR EMISSIONS ASSISTANCE PROGRAM

The federal Clean Air Act Amendments of 1990 require each state to establish a small business technical assistance program to help small businesses meet air emission requirements and reduce air emissions.

Iowa's program, the **Iowa Air Emissions Assistance Program (IAEAP)**, is operated through the Iowa Waste Reduction Center, at the University of Northern Iowa.

IAEAP can assist any small business that:

- ◆ Employs fewer than 100 people.
- ◆ Is not a major stationary source of air pollutants.
- ◆ Emits less than 50 tons per year of a single regulated air pollutant.
- ◆ Emits less than 75 tons per year of all regulated air pollutants.

Small businesses that do not meet this criteria may receive assistance through the Iowa Waste Reduction Center.

---

*“Very professional, practical, thorough and helpful. An important program for Iowa business and environment.”*

*Delhi*

---

## ASSISTANCE

IAEAP staff members are prepared to directly assist small business stationary sources with many aspects of Clean Air Act compliance including:

- ◆ Air permit assistance.
- ◆ On site assistance with air emission questions.
- ◆ Information regarding small businesses' rights and responsibilities resulting from implementation of the law.
- ◆ Methods of pollution prevention to reduce waste and meet new emission requirements.
- ◆ Accidental release prevention and detection.

IAEAP provides information concerning alternative technologies, process changes, procedures and methods of operation that help reduce air pollution.

All assistance is provided at no charge.

---

*“Very helpful for smaller manufacturing operations that do not have technical expertise in waste management, but wish to protect the environment and comply with laws/regulations.”*

*Rock Valley*

---

## INFORMATION

For more information on the Iowa Air Emissions Assistance Program, contact the IWRC at

# ABOUT THE IWRC

The Iowa Waste Reduction Center, located at the University of Northern Iowa, began operations in January, 1988. The IWRC provides free, non-regulatory, and confidential assistance to small business and industry.

The IWRC also:

- ◆ distributes a quarterly newsletter, *The Closed Loop*, with information and ideas on regulations, waste reduction techniques and other related information at no charge;
- ◆ transforms waste products into valued products by helping companies identify materials currently being discarded and locating companies that can reuse these materials.

Printed on recycled paper.

An equal opportunity educator and employer with a comprehensive plan for affirmative action.
