Status and progress index maps are available free on request from the Distribution Branch and the National Cartographic Information Center shown on page 1. They are: Status and Progress of Topographic Mapping (7.5- and 15-minute Series); Index to 7.5-minute Orthophotoquad Mapping; Index to USGS/DMA 1:50,000-scale 15-minute Mapping; Index to 1:100,000- and 1:250,000-scale Land Use and Land Cover and Associated Maps (Land Use and Land Cover and Associated Maps Digital Data on reverse side); Index to National High Altitude Photography (NHAP I) — Color Infrared Photography (Black and White Photography on reverse side); Index to National High Altitude Photography (NHAP II), Leaf on Photography — Color Infrared Photography (Black and White Photography on reverse side); Index to 1:100,000-scale Quadrangle Mapping (1:50,000- and 1:100,000-scale County Maps on reverse side); Index to 7.5-minute Digital Line Graph Data (Digital Elevation Model Data on reverse side); Index to Small-Scale Maps of the United States; Index to USGS Topographic Map Coverage of the National Park System; Index to United States Topographic and Other Map Coverage of Antarctica.

Iowa Catalog of topographic and other Published Maps

Contents

This Catalog is a companion publication to the *Iowa Index to topographic and other Map Coverage*. The Catalog lists maps and map products produced under the U. S. Geological Survey's National Mapping Program that are available as of AUGUST 1986.

The Catalog lists alphabetically, grouped by map type and scale, the names, dates, and prices of all available maps. The lists include published topographic maps, orthophotoquads, State maps, vicinity maps, satellite image maps, United States maps, and World maps. In addition to published maps, the Catalog lists products available from the National Cartographic Information Center (NCIC) including diazo-print orthophotoquads and Land Use and Land Cover map products.

Also shown in the Catalog is a list of map reference libraries located in Iowa, and the commercial map dealers from whom maps may be purchased.

Ordering

Published maps listed in this Catalog may be purchased over the counter or ordered from either of the following:

- | | |
|---------------------------|-------------------|
| ● Map Distribution | ● Commercial Map |
| U. S. Geological Survey | Dealers (Names |
| Box 25286, Federal Center | and addresses |
| Denver, Colorado 80225 | listed on page 2) |

Published maps may be ordered by mail from the USGS either by indicating in the Catalog the quantity desired for each map or list the desired maps on the "Published Maps" order form in the center of this Catalog.

Published maps may also be purchased over the counter from the Mid-Continent Mapping Center (address below) and the USGS Public Inquiries Offices listed on the inside back cover.

National Cartographic Information Center products listed in this Catalog are ordered from the following only:

- Mid-Continent Mapping Center – NCIC
U. S. Geological Survey
1400 Independence Road
Rolla, Missouri 65401

National Cartographic Information Center products may be ordered by mail either by indicating in the Catalog the quantity desired for each map product or list the desired map products on the "National Cartographic Information Center" order form in the center of this Catalog.

Prepayment is required for published maps and for NCIC products ordered from the USGS. Full remittance, payable to Department of the Interior-USGS, must accompany each order.

Prices shown are in effect as of January 1, 1985.

Prices are subject to change without prior notice. Therefore, prices in effect when your order is filled may differ from prices in this Catalog.

MAP REFERENCE CODE

U.S. Geological Survey maps are identified by name and series. In addition, a system has been initiated whereby each map is assigned a unique reference code which indicates the geographic coordinates, type, unit of measurement, and scale of map. A file number, also unique to each published map, is assigned for internal USGS order filling purposes.

Various examples are illustrated at the right and a key to abbreviations is shown below.

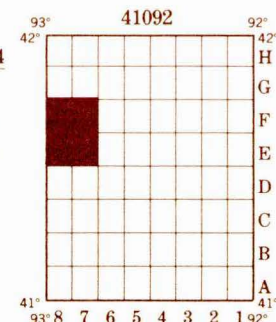

MAP TYPES

AB - Alaska Boundary Series Index
 AF - Alaska Boundary Series-National Forest System
 AL - Alaska Boundary Series-Bureau of Land Management System
